## THE VILLAGE OF GOOD WILL

(Tune—Marching Through Georgia)

Tuscarawas is a goodly village, we'll shout it into song,  
Shout it in a chorus which shall prove a million strong,  
Shout it with a purpose which shall help our lives along,  
Good will to all who live in Tuscarawas.

**Chorus—**Hurrah! Hurrah! our village on the pike!  
Hurrah! Hurrah! let every mind awake!  
Not for one, or many, but for all the peoples' sake—  
Good will to all who live in Tuscarawas.

Proud are we of Tuscarawas, of its industry and skill,  
Prouder of its progress toward the apex on the hill,  
Proudest of its title, now—the Village of Good Will,  
Good will to all who come to Tuscarawas.

**Chorus—**Hurrah! Hurrah! our Village on the pike!  
Hurrah! Hurrah! let every heart awake!  
Not for one, or many, but for all the peoples' sake—  
Good will to all who come to Tuscarawas.

Let us not forget it when this hour has passed away,  
Let us think it always in our work or in our play,  
Let us hold it in our hearts forever and a day—  
Good will to all the world from Tuscarawas.

**Chorus—**Hurrah! Hurrah! our village on the pike!  
Hurrah! Hurrah! let every soul awake!  
Not for one, or many, but for all the peoples' sake—  
Good will to all the world from Tuscarawas.

(2)

## A BRIEF HISTORY OF EARLY TRENTON

as published in 1884, with additions to Aug. 30, 1928

**T**HE Village of Trenton is located near the center of Warwick Township, in the beautiful valley of the Tuscarawas, about one mile west of the river and four miles west of Uhrichsville, and seven miles south of New Philadelphia.

Lewis Knauss, in the year 1801 erected a log cabin on the site where is now located the village of Trenton.

Sewards, Knausses, Demuths, and Uhrichs were about the first to settle the immediate vicinity. Others soon after followed these hardy pioneers, and it was not long till the beautiful valley began to have a habitation and a name.

Trenton, the only village in the township, and one of the oldest in the county, was laid out in 1816 by Abraham Ricksecker and Abraham Romig, attorneys in fact for Eberhard Freytag. It consisted of sixty lots,  $3\frac{1}{2}$  by  $10\frac{1}{2}$  perches in size. John Uhrich, in the same year, made an addition of 24 lots to the south of the original plat. Two additions have since been laid out, one consisting of 40 lots, in 1830, by Clewell and Fenner, south of Cherry street and the other, comprising 10 lots lying between the addition of Uhrich and that of Clewell and Fenner, by John Minnich, in 1835.

The name of the village for a number of years was Tuscarawas, or "Tuscarawastown." The name of the place was then changed, on petition, to Trenton, but inasmuch as a postoffice named Trenton already existed, in Butler county, the original name, Tuscarawas, has since been retained for the office, also the town.

Abraham Ricksecker, one of the proprietors, was a Moravian, and when he first came to the county, in 1811 or 1812, settled about a mile north of the village which he assisted in founding. By occupation he was a drover, and died while in the East on business. Eberhard Freytag, on whose land the village was located, was a resident of Bethlehem, Pa. Godfrey Westhafer moved to Trenton

(3)

in 1817 or 1818, and opened in a log house the first hotel of the village, "The Westhafer House, Sign of the Cross Keys." The proprietor of this tavern was a jolly good-natured host, and it became a popular place of entertainment for early travelers through this part of the county.

The village grew slowly. In 1826, it contained the following resident lot owners: Henry Everett, who afterward went west; Joseph Fries, the first blacksmith and an early settler, who secured the services of some Goshen Indians to assist him in the erection of his shop; Benjamin Harbaugh, a cabinet maker, who afterward moved to Iowa and died there; Lewis Knauss, farmer and land speculator; James Myers, who operated a tannery at Trenton, and later in life removed to Uhrichsville, where he died; Joseph Sturges, a Pennsylvania German, who remained here through life; as also did Jno. Uhrich, Godfrey Westhafer and John Whitman. The first merchant and postmaster was John Minnich. He was born in Bedford, Pa., August 10, 1798; came to New Philadelphia with his parents in July, 1805; taught school in his youth, and about 1827 came to Trenton. He opened his store in the log structure which was moved from the deserted Goshen Mission, and with slight repairs served him as both store and dwelling house until 1835. Some of the first goods were purchased in Pittsburgh and teamed to Trenton, while others were wagoned over the mountains from Philadelphia. Isaac Everett, late of New Philadelphia, clerked for him from 1833 to 1836, the first two years at a salary of \$5.00 per month and board. Mr. Minnich remained a life-long business man of the village, and died June 5, 1870. Other early tavern keepers were Col. Elisha James and Samuel Romig.

Not until the canal was built through the village did it begin to attract settlers. In 1834 the population reached about 120; in 1870, it was 292, and in 1880, 314; and in 1920, 500. Dr. Richard Hewitt located here in the fall of 1833. He was afterward appointed Indian agent, and died in the West. Dr. Hiram Eckman came in 1834, and except for one year, when he resided in Newcomers-town, remained in continuous practice until his retirement from business. Dr. A. P. Buchanan, Dr. Moore, and several others practiced the healing art here in years

gone. Then came Dr. E. S. Russell, followed by Drs. Kurtz, Dempster, Clever, Henry and Miller. The village at this writing, 1884, contains four general stores, a drug store, a millinery store, two furniture establishments, two blacksmith shops, three shoe shops, two wagon shops, and a cooper shop.

Although Trenton retains its primitive appearance with regard to many of the buildings, a number of neat and handsome structures have been reared within the last few years. Its inhabitants include the descendants of many of the early settlers, and the thrifty habits of the forefathers are still discernible in the children of the third and fourth generations.

The first school house in the township was erected in 1818 near where the Sharon church is now located, one mile north of the village. The first one erected in Trenton was a log structure built about the year 1820, on a lot which was donated and laid out for school purposes by Dr. Eberhard Freytag. The second was a one-story brick school house of two rooms. The third was a two-story frame building containing four rooms, built in 1858. The fourth was a two-story brick structure containing six rooms and was built in 1884.

The village of Tuscarawas was incorporated in 1887. June 21, 1888 an ordinance was passed to issue bonds in the sum of \$350.00 to defray the necessary expenses for the purchasing of a lot and erecting an office thereon and the necessary seats, books, supplies, etc.

June 5, 1896 an ordinance was passed granting the right to a company for the erection of poles, etc., for telephone service.

In the year 1902 the town voted on a \$10,000.00 bond issue for the erection of a Town Hall; the same was carried and the building was begun in 1903 and completed in 1904. The first floor contains a festival room, Mayor's office, cell room and Township room. The second floor contains the auditorium, and the third floor is occupied by the different lodges. Dec. 31, 1915, an ordinance was passed granting the right to The Ohio Service Co. to erect poles, etc., for the lighting of the streets, homes and business places, etc.

## TUSCARAWAS-WARWICK TOWNSHIP SCHOOL BUILDING

At the November election of 1926, a bond issue of \$96,000.00 was submitted to the electors of Warwick Township for the purpose of erecting a new school building in Tuscarawas, and the repairing of the Wainwright building which resulted in favor of the bond issue. The Board of Education then began taking the necessary steps for the erection of said building, which was begun in May, 1927, and was completed in April, 1928. The same was occupied by the school April 13 and was dedicated April 20th.

Walter A. Raybold designed the building, The C. E. Heintzelman Co. had the general contract, Slasor & Leiser did the wiring and The Columbus Heating & Ventilating Co. the construction of the heating plant.

Totterdale Bros. did the plumbing.

The work was carried on under the supervision and with the help of the board of education and county superintendent, Charles Barthelmeh. The people of Tuscarawas, as well as the teachers and pupils who had the honor of first occupying the building are convinced that all have done their work very well, indeed.

We feel that to those who have not had the opportunity of inspecting our building, a description of it would prove very interesting. It is rather difficult to know just where to begin such a description, but since construction begins at the bottom, we shall begin there, too.

The frame of the building and all supporting columns are of steel or reinforced concrete. This is faced with tapestry face brick which makes a very pleasing exterior. A back-up of fireproofing tile combined with metal lath and sash, and concrete subfloors makes the structure practically fireproof.

In the basement is found the furnace room with its battery of five hot air furnaces and in a separate room a powerful fan that drives the heated air to all parts of the building. Close by is a dressing room for the athletic teams, fitted with lockers and opening into a shower room. The front of the basement is occupied by four laboratories, for domestic science, manual training and agriculture.

TUSCARAWAS-WARWICK TOWNSHIP SCHOOL BUILDING

ST. JAMES LUTHERAN CHURCH

The sewing room is equipped with eight sewing tables and a clothes press. The cooking room with four cooking tables, a demonstration table, two sinks, two electric hot plates and an electric range, is very complete. Next in line is the manual training room which contains eight single work benches.

On the first floor are six class rooms capable of seating forty pupils each and equipped in the most modern manner. From the corridor which runs almost the entire length of the building, stairways lead to the basement and to the second floor. Two doors give access from this corridor to the combined gymnasium and auditorium, one of the best features of the entire structure. It has a playing floor thirty-four by fifty-eight feet and an elevated balcony seating over two hundred spectators.

In the center of this balcony is a modern motion picture booth. The other side is occupied by a large stage with its dressing rooms. When the playing floor is filled with chairs over five hundred people can be accommodated.

On the second floor we find a corridor similar to the one below and opening from it are four recitation rooms, an assembly room, a laboratory and office. The laboratory is equipped with six biology tables, six combined physics and chemistry tables, an instructor's table with aquarium, a fume hood and other essentials. The assembly room has desks sufficient to accommodate seventy pupils and a spacious library at the rear separated by a glass partition.

It would be impossible to give a real idea of the modernity and completeness of this wonderful new building, but we are certain that it is second to none in any community of similar size. The community of Tuscarawas is surely to be congratulated on possessing such a structure.

### LUTHERAN CHURCH

The earliest record shows that services were occasionally held in the school house in 1832 by Rev. E. Greenwald of New Philadelphia, and about 1836 chiefly through the efforts of John Minnich, a large frame church was erected, which was the first religious edifice in the village. The cornerstone was laid June 11, 1842. During the pastorate

SHARON MORAVIAN CHURCH

of Rev. Foust in 1886 the church was rebuilt. The cornerstone was relaid May 8, 1887, and was rededicated on Oct. 9, 1887. Rev. G. C. Smith is the present pastor.

### SHARON MORAVIAN CHURCH

The first service of the Sharon Moravian church was held on New Year's Day, 1815, at the home of George Blickensderfer, conducted by Bro. Abraham Luckenbach, a missionary at Goshen, which marks the beginning of the career of the Sharon congregation.

The first church at Sharon was erected in 1817 and dedicated Dec. 24 of the same year. The Sharon Sunday School was organized Nov. 1, 1840 with a membership of 50 scholars.

The foundation for a new church was made in 1857 and by the end of the year plans were made for the dedication which was set for Feb. 21, 1858. The new building measuring 46 x 71 feet, which was four times the dimensions of the old church. The spire tapered to a point 148 ft. from the ground. A storm in the year 1870 unroofed the church and blew the spire down, which was rebuilt but not so high as before. The first sermon was preached by Bro. Kampman. As the years passed improvements were made. In 1908 the fiftieth anniversary of the dedication was held. Rev. M. F. Oerter, the present pastor, was called here in 1910.

### LODGES

Warwick Council No. 117, Jr. O. U. A. M. was organized by James McGonigal and instituted Sept. 6, 1890.

Golden Gate Lodge No. 722, Knights of Pythias, was organized by Gustavus Regula and instituted June 27, 1901.

Oak Temple No. 288, Pythian Sisters, was organized and instituted March 21, 1906.

Tuscarawas Co. No. 76, U. R. K. of P., was organized by Gustavus Regula and mustered in May 17, 1906.

Tuscarawas Council No. 258, D. of A., was organized by Mrs. Hettie Kopp and instituted Apr. 21, 1925.

## SONS OF UNION VETERANS AUXILIARY

of John D. Cuning Camp No. 56

AUXILIARY NO. 36

This Auxiliary was instituted June 15, 1921.

The present officers and members are as follows: President, Sara Benner; Past President, Anna Richman; Vice President, Ida Schindler; Treasurer, Ina Meese; Secretary, Ada Nuhart; Chaplain, Esther Winkler; Patriotic Instructor, Kathryn Simmons; Guide, Mary Schumaker; Assistant Guide, Nora Fivecoat; Inside Guard, Lucy Keffer; Outside Guard, Addie Wheland; Color Guards, Mary Keffer, Alta Nussdorfer; Press Correspondent, Lillian Crites; Organist, Ethel Meese; Minnie Nuhart, Mac Knauss, Clara A. Van Lehn, Eva Williams, Bessie Simmons, Lillian Pfister, Clara Schindler, Gertrude Simmons, Marie Eckhart, Florence Williams, Alice Lorenz, Matilda Johnson, Nellie Affolter, Ethel Keffer, Leona Stull.

While quite young in years we have tried to live up to our obligation, by looking after the Soldiers, Wives, and Widows. At Thanksgiving and Christmas we give them gifts of fruit, cake and candy. When sick we visit and take them flowers.

On Decoration Day we see that autos are provided to convey them to the services. The first year we remembered 23 families of the boys of 1861 to 1865. At the present time we have the following: Mr. and Mrs. Benj. Richman, Mr. and Mrs. Jacob Affolter, Mr. and Mrs. James Fivecoat, with the widows of Wm. Narney, Jacob Stuber, Jehu Eckman, R. T. Benner, Sr., Milo Thompson, Chas. Walton, —Walton.

We buy potted plants to place on the graves of departed soldiers, for Decoration Day. Memorial Service—To the Soldier—Sailor Dead,—are held on Memorial Sunday on the banks of the Tuscarawas River, at which time a beautiful miniature boat built by G. F. Born (now deceased) and presented to the Auxiliary, is filled with flowers and floated down the river in token of the heroes who sleep beneath the Ocean's waves, whom the Nation does not forget, and whom when danger calls we will remember as our brave exemplars.

We as members wish to thank all who have helped make this History and Home Coming a success.

## THE TUSCARAWAS POST OFFICE

It has been said that there are small towns from which you can neither "telegraph, telephone or even tell-a-woman," but not so our little village; its growth has been slow, but it grows and is prosperous and progressive

Our first Postoffice was established by John Minnich in a store-room of a log building which was moved from the deserted "Goshen Mission." Mr. Minnich was appointed Postmaster in 1827 and served as store keeper and mail distributor for 25 years; Mr. Minnich was succeeded by the following: Christ Clewell, H. J. Kniseley, I. I. Simmons, Officer Cuning, A. E. Roth, R. G. Galbraith, C. W. Schindler, J. F. Reiser and H. C. Minnich who resigned because of ill health.

Up to this time the Postmasters were assigned or appointed according to the rule, "To the victor belong the spoils." Hence the changes from Democratic to Republican Postmasters and vice-versa.

Civil Service was now declared for applicants for 4th class postoffices; Miss Clara A. Van Lehn, teacher in our public schools, was the successful candidate and received her appointment of Postmastership Oct. 20, 1909 and is still serving.

The records of the office show an increase of business each year—in Money Orders issued, Registration business, C. O. D. privileges, parcels insured to reach their destination safely, and last, but not least, we are frequently told that now Tuscarawas furnishes the best 4th class P. O. room in the county.

Mention is due the faithful "mail carriers" who braved wind and weather for a paltry sum to carry "news" to and from our village; instead of the one-time wheezy horse ridden by Sam Vogel, carrying one or two pouches to and from Tuscarawas Station, C. W. Schindler, after 31 years of service, now drives a neat mail truck to and from Uhrichsville twice daily, bringing not one or two pouches, but frequently 10 or 15 pouches of mail. We think this shows progress.

One of the most wonderful inventions in all history has been the wireless telegraph and telephone, which is soon to be followed by television. In this field of wonders there has been one outstanding representative in our community, Clare E. Crites, who has spent innumerable hours at its study and practice, having experimented with practically every known circuit and product of this art. The following is his own description of a small part of his activities: "In March 1910 I started to study wireless, Feb. 11, 1910 saw the completion of my first transmitting and receiving sets which were made up mostly of home-made parts. The transmitter consisted of Ford spark coils, carbon rods taken from old dry cells, condensers made up of photograph plates and tin foil; this equipment used with a Morse telegraph key and a 25 ft. L type 4 wire antenna had a range of only 10 miles. The receiver was made up of a hand-made tuning coil, with coherer detector and a pair of 1000 ohm head phones. I used various combinations of these outfits until Jan. 20, 1915, when I received my first factory made receiving set from The Nicholas Electric Co. of New York. With this outfit I could receive Arlington time signals from Washington, D. C., also signals from various ships on the Great Lakes. Following this I went to France during the World War, going through much of the severest fighting. During the war period all wireless activities were prohibited by the government. After returning from France in 1919, I built a transmitter and receiver capable of a 1000 mile range and also received my first Radio operators and station license from the Department of Commerce, being assigned the call letters 8DBP. Following this I have built many of the now famous radio circuits such as the neutrodyne, heterodyne, regenerative, etc.

In 1925 with my brother Roger M. Crites we organized the Crites Bros. Radio Co. for the sale of commercial receivers that were on the market at this time.

It has always been our policy to deal exclusively in radio as we believe radio cannot be successfully followed by mixing with groceries, confections, or other non-allied business, as radio consists of more than merely selling a receiver without service.

It has always been our desire to give the public the most there is in radio for the least money.

At the present time we are operating a small shop in Tuscarawas, and expect to open a branch store in Gnadenhuetten in the near future. The following are the better known receivers which we are able to supply our customers during the 1928-29 season: Crosley, Amrad, Majestic, Bremer Tully, Kolster, Steinite and Radiola Combinations."

### HEETER MEAT MARKET

In 1904 Wm. Heeter and Charles Rolli started a Meat Market in a very small shop owned by Wm. Rolli. They were in business together about four years. In the meantime the present building was bought from Reuben Reiser, known as the Al Roth building and moved to the present site. At this time it was equipped with the later improvements. A short time afterwards Charles Rolli sold his share to Mr. Heeter, making him sole owner. At a future date Wm. Rolli went in with Mr. Heeter as a partner. They then purchased a meat wagon and sold meat from house to house in Wainwright. They were in business together for seven years or until the great coal strike came. Then Mr. Heeter was engaged in the Restaurant business for a number of years. In 1924 he went in the meat market again at the same location as previous years. At this time he added groceries, fresh vegetables and fruit. He is still continuing in the same work.

### G. H. KLEIN

#### Hardware, Groceries and Notions

G. H. Klein came to Tuscarawas in April 1897, at which time he was a blacksmith by trade. He followed this business until February 1901. Then due to injuries received while at work, he was compelled to discontinue blacksmithing.

February 1, 1901, Mr. Klein began a Hardware store in one half the building now occupied. In the fall of 1902 he increased his business to that of hardware, groceries and notions, which he successfully operated to the time

of his death, Dec. 15, 1920. During almost the twenty years that Mr. Klein was engaged in the store business he was assisted by his wife, Mrs. Alice Klein, who took great interest in the buying and sale of merchandise.

Since December, 1920, the store has been managed by Mrs. Klein, with the help of her two sons and daughter, who have assisted in continuance of the business, and have tried to serve the public by maintaining a stock of high quality merchandise at all times.

---

### SIMMONS MEAT MARKET

D. A. Simmons has been in the meat market business for 35 years in Tuscarawas, has served the people right at all times and still solicits their patronage.

---

### GASOLINE STATION

In 1897 Mr. Sherman Stemple bought an old shop from Mr. John Rolli and started business as blacksmith. In a short time he purchased another building and added to the former. A few years later he built a new addition making a much larger and more up to date blacksmith shop.

In 1917 he had a Standard gasoline pump erected in front of the blacksmith shop, it being the first pump in Tuscarawas. It was at this time that Mr. Stemple started automobile repairing, vulcanizing tires, and selling accessories. As time went on and the demand for gasoline became greater he erected a filling station between the residence and the blacksmith shop. It was in the year of 1920, the ground being leased from the town. This was the first filling station in the town of Tuscarawas. He started with one gasoline pump selling Canfield gasoline; now he has three and is selling Canfield and Sinclair gasoline.

---

### CEMENT BLOCKS

In 1915 Mr. E. Huff began the manufacturing of concrete blocks.

### REISER BROTHERS

Reuben Reiser at the age of 15 years began clerking for his brother Charles Reiser, now deceased, in the Hardware store, where he remained for 9 years. In 1902 Mr. Reiser and Warren Houk formed a partnership and purchased the stock from Chas. Reiser. After two successful years, Mr. Reiser purchased the interest of Mr. Houk and conducted the business himself.

At the completion of his new building on Main street in 1907 he moved into the same, carrying a full line of farm machinery, buggies, wagons, stoves, and general hardware, with a full line of groceries and provisions. In 1925 Mr. Reiser formed a partnership with Irvin and Albert Reiser, accepting the agency for the Buick automobiles. Erecting a fine display room and garage where they are prepared to do all kinds of repair work and carrying a full line of parts, etc.

Mr. Reiser's parents, Mr. and Mrs. John Reiser (deceased) came to America from Canton Berne, Switzerland, in 1854, and settled near Tuscarawas, Ohio.

---

### J. F. REISER & SONS

J. F. Reiser started in business August 10, 1892, with his brother Charles as a partner, in the Lehr Building. While there with the general store they had the postoffice. Mr. Reiser was there nine years. In 1901 he moved into his new and more modern building, where he and his sons conduct a general merchandise store. He has been in business in Tuscarawas for thirty-six years. They are thankful to the people of Tuscarawas and vicinity for their liberal support.

---

### KOPP BROS. BAKERY

In the year 1895 Mr. Andrew Kopp, Sr. established a bakery business in Tuscarawas which he operated for a period of 23 years. Upon the death of Mr. Kopp, which occurred in 1918, his sons, Andrew, Jr. and Geo. purchased the business, and in 1923 the new building on Main St. was erected and equipped with modern and up to date machinery, and is conducted under the name of Kopp Bros. Bakery.

## GRIST MILL, PLANING MILL & CIDER PRESS

A large brick grist mill was built in 1873 by John Blatter; but, his failure in business occurring before its completion, it passed into the hands of a creditor in 1888. It was purchased by Mr. Beyer who completed and put it in operation. It was then purchased by Mr. Eckman in 1889, who operated it until 1896 when it was purchased by H. C. Minnich, Geo. Schmitz and E. McMurry.

In 1898 it was purchased by B. Schindler and F. Sherer, and in 1909 it was purchased by J. C. Oswald, who operated the same for 10 years, and in 1920 Mr. Jno. Wolf became a partner and is still operated by them at the present time, in connection with a planing mill and cider mill.

## MILLINERY STORE

Miss A. M. Parr who has conducted a millinery in Tuscarawas for the past 25 years takes this opportunity to thank one and all for their kind patronage and cordially invites them all to return.

## BARBER SHOP

On Friday the 6th day of February, 1920 I opened a Barber Shop in Tuscarawas, and thanks to all the patrons of my place, I have tried to live a good life in all the years since. After settling myself for a short time I began to see where the people of the town were missing the matter of reading. So I got to thinking and finally started a kind of news store, but the store was too small for both businesses and I began to wish for a bigger and better location. But this opportunity was not given to me for a long time. Finally I got just what I wanted and there I was able to separate the two kinds of business and not interfere with each other. In that location too I thought I could show my appreciation to the community by equipping a nicer barber shop for more comfort for the people, and the same time make me proud to

own it. Now let us all hope that this is the beginning of a long prosperity, and make the town, especially to the newcomers, a good place to live in.

Again thanking all the community of Tuscarawas in general for their support,

I am yours very truly,

THOS. D. COTIIS.

## MYER'S STORE

This general store, now owned by Ralph E. Myer, was established thirty-one years ago by the late Allen T. Myer, father of the present owner, who purchased it from his brother, E. A. Myer and Augusta Van Lehn.

The original building, a frame structure, was used until the year 1913, when a disastrous fire burned it to the ground, entailing a great loss to the owner. The business was then continued in temporary quarters until the present modern brick structure was erected in 1914.

In the year 1912, Ralph E. Myer purchased a half interest in his father's business, which was then conducted under the firm name of A. T. Myer & Son, continuing so until after the death of Allen T. Myer in 1921, when the business and real estate was purchased by the son Ralph who has been conducting the business up to the present time.

In the year 1926 the business was put on a modern cash basis, and since that time has been conducted on this plan, being the only cash store in Tuscarawas.

The cash plan has been the means of big savings on the cost of living to the patrons of this store.
